

Holiday Inn Ashford North A20 now offers High Speed Internet Access

October 11, 2007

The Holiday Inn Ashford North A20 announced today the availability of High Speed Internet Access to all guests of the hotel. Guests can now connect to the Internet at broadband speeds from the comfort of their own room using their own laptop, or browse the internet on the latest LCD TVs which have also been introduced in the rooms. Alternatively, guests can connect wirelessly to the internet from any of the hotel's public areas, including its 8 conference rooms.

In addition to High Speed Internet access, guests now have the choice of On Demand pay movies enabling them to view the latest movies before they come on the market. Guests also have the choice of being able to pause, rewind and forward the movies thanks to the latest digital technology that has now been installed at the hotel.

Re-opened in 2003 following a multi-million pound refurbishment, the Holiday Inn Ashford North A20 features 92 air-conditioned, well appointed bedrooms, a mini-gym, as well as 8 meeting rooms with conference & banqueting facilities for up to 125 delegates. The hotel is located just minutes from the M20 and within easy reach of the Channel Tunnel and the busy ports of Dover and Folkestone.

The Holiday Inn Ashford North A20 was acquired by Q.N. Hotels Group in June 2007. With strategic acquisitions as well as new build hotels, Q.N. Hotels Group has rapidly expanded and now owns 5 hotels and a health & leisure centre located across various areas of the United Kingdom. The Group operates in all sectors of the hotel market from limited service to up-scale.
